

# SPRUCE TREE MONTESSORI SCHOOL

## Our Approach to Layered Mitigation as Recommended by the CDC

The CDC recommends that: "Universal indoor masking, screening testing, ventilation, hand-washing and respiratory etiquette, staying home when sick and getting tested, contact tracing in combination with quarantine and isolation, and cleaning and disinfection are important layers of prevention to keep schools safe." Spruce Tree will implement all layers, effective 9/30/21.

**Universal Indoor Masking - Per survey, masks will be required during high transmission.**

**Screening Testing - Our new testing clinic will open 9/30; details soon!**

**Hand Hygiene - will continue!**

**HEPA Filtration - Now in all classrooms, gym, lobby and teacher office.**

**Symptoms Control - to continue. All to stay home/be sent home when they are sick.**
